SUMMARY

Computer Science Engineering graduate from NMIT with hands-on experience in the MERN stack and machine learning. Developed real-world projects, including an Attendance Management System using the MERN stack, a machine-learning-based Admission Prediction model, and Doc-AI, an AI-powered document intelligence system. Passionate about problem-solving, software development, and continuously learning and exploring new technologies.

INTERNSHIP EXPERIENCE

Completed an 8-month internship as an Operations Engineer at Project44, working with enterprise tools and organizational workflows. Contributed to the development of dashboards and an Employee Summary System by extracting and using data from internal tools.

EDUCATION

Nitte Meenakshi Institute of Technology, Bengaluru	2022 – 2026
B.E. in Computer Science and Engineering CGPA: 9.13	Yelahanka, Bengaluru
YJR PU College, Koppal	2020 – 2022
PCMB Percentage: 93.83%	Koppal, Karnataka
MDRS, Anakunti, Koppal	2019 – 2020
SSLC Percentage: 96.64%	Koppal, Karnataka

PROJECTS

Employee Attendance System [GitHub](#) [Live Demo](#)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- A full-stack, role-based attendance and leave management system with Admin and Employee portals.
- Implemented attendance tracking, leave applications, approval workflows, and real-time status updates using REST APIs.
- Integrated email OTP verification and secure authentication for user registration and login.
- Developed responsive dashboards for employee attendance and leave monitoring.

DOC-AI [GitHub](#) [Live Demo](#)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Qdrant, Google Gemini API

- AI-powered document intelligence system for uploading documents and querying them through natural-language conversations.
- Built a RAG pipeline for text extraction, chunking, embeddings, semantic search, and Qdrant-based context retrieval.
- Added secure authentication, document management, chat history, and responsive dashboards.

College Admission Prediction [GitHub](#)

Tech Stack: Python, Scikit-learn, Pandas, Matplotlib

- Created a machine-learning model to predict student admission chances based on academic scores.
- Compared multiple algorithms and visualized results with interactive charts and dashboards.

SKILLS

- **Languages:** C, C++
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **Developer Tools:** VS Code, GitHub
- **Soft Skills:** Leadership, Teamwork, Communication, Problem Solving, Adaptability

CERTIFICATIONS

- Database Management System – Springboard
- Artificial Intelligence and Machine Learning – Springboard
- Java Foundation Certification – Springboard
- Operating Systems Basics – Cisco Networking Academy
